**RFP GENERAL OVERVIEW**  
**RFP#19/99-T – ENVIRONMENTAL CONSULTING**  
**SERVICES**

The purpose of this RFP is to solicit the information needed for Northern Nevada Development Authority (NNDA) to select a consulting firm to provide environmental consulting services. NNDA will use U.S. Environmental Protection Agency grant funding (FAIN 99T74901) to conduct assessments of contaminated or potentially contaminated properties (“Brownfields”) within the boundaries of NNDA’s designated redevelopment areas. The five (5) areas are Carson City, Douglas, Lyon, Mineral and Storey Counties, Nevada. The selected consultant will assist by providing project management and community outreach services, preparing an inventory of potential Brownfields sites, conducting Phase I and Phase II assessments on priority sites and developing clean-up plans, and monthly and quarterly reporting.

The firm selected to provide these services will be required to assure the assessments are conducted in compliance with the Society for Testing and Materials (ASTM) practices and guidelines for Phase I ESA’s Standard E1527-21 and for Phase II ESA ASTM Standard E1903-19 and the U.S. EPA 40 CFR Part 312 Standards and Practices for All Appropriate Inquiries (AAI), as well as state and local agency requirements.

The Contractor agrees to comply with the requirements as set forth in 2 CFR 255, Cost Principles for State, Local and Indian Tribe Governments; OMB Circular A-102, Grants and Cooperative Agreements with State and Local Governments; and, 40 CFR Part 31.36(j), which limits EPA’s participation in the salary rate (excluding overhead and travel) paid to individual consultants retained by NNDA to the maximum daily rate for a Level IV of the (federal) Executive Schedule. The rate is adjusted annually. As of January 1, 2023, the rate is \$705.77 per day and \$88.22 per hour.

As required by NNDA’s agreement with the EPA, NNDA must comply with the requirements of EPA’s Program for Utilization of Small, Minority and Women’s Business Enterprises in procurement as set forth in 40 CFR Part 33. The EPA DBE rule can be accessed at <http://www.epa.gov/osbp>. The selected contractor must comply with 40 CFR Section 33.301, the “Good Faith Efforts” provisions, if it awards subcontracts. Contractors must maintain records documenting compliance with these provisions.

NNDA has accepted the applicable MBE/WBE fair share objectives/goals negotiated with EPA by the Nevada Department of Conservation and Natural Resources. For the procurement of services, the fair share goals are seven percent (7%) for Minority Business Enterprises (MBEs) and twenty-five percent (25%) for Women’s Business Enterprises (WBEs). Accordingly, if the prime contractor does not itself meet these goals, the use of MBE and/or WBE subcontractors may be required if determined that these “fair share” requirements are not being met through other means. NNDA encourages consortia of MBE and/or WBE firms to apply. MBEs and WBEs must be certified by EPA, the U.S. Small Business Administration, the U.S. Department of Transportation, or by a state, local, Tribal or private entity whose certification criteria match EPA's. For more information regarding MBE/WBE certification please access the following information on the EPA's website: [http://www.epa.gov/osdbu/pdfs/dbe/mbe\\_wbe\\_certification.pdf](http://www.epa.gov/osdbu/pdfs/dbe/mbe_wbe_certification.pdf) and [http://www.epa.gov/osdbu/pdfs/dbe/dbe\\_program\\_overview\\_and\\_full\\_comparison2.pdf](http://www.epa.gov/osdbu/pdfs/dbe/dbe_program_overview_and_full_comparison2.pdf).

The selected contractor shall maintain and provide NNDA with all information necessary to prepare and submit the required MBE/WBE Utilization Report (EPA Form 5700-52A)."

The awarded firm will be required to provide NNDA with their unique Dun & Bradstreet Data Universal Numbering System DUNS® number prior to award. If you need a DUNS number, visit D&B at <http://fedgov.dnb.com/webform>.

## PROJECT OVERVIEW

### BACKGROUND

The Northern Nevada Development Authority (NNDA) is a State authorized regional development authority serving the northern Nevada counties. NNDA's jurisdiction includes Carson City/ County, Douglas County, Mineral County, Storey County and Lyon County. The area covers both the mountainous regions of the eastern Sierra range, the Comstock Lode mining area and high desert areas traversed historically by westward pioneers and more recently by major interstate freeways such as I-80, US 50 and I-395.

The target areas selected include Silver Springs in Lyon County and the Minden Gardnerville area and Topaz Lake/Holbrook Junction area of Douglas County. All these areas are unincorporated town settlements. Past uses such as farming, mining, railroad, auto-related commercial and more recently intense wildfires have left contaminants in sections of the target areas.

#### Silver Springs in Lyon County:

Silver Springs lies at the junction of Highway 50 and State Route 95(A) and USA Parkway (Route 439). The USA Parkway is a recently constructed 4-lane highway (opened in 2017) which connects US 50 with Interstate 80. Silver Springs is a small predominantly (50%) low-income town with a high unemployment rate. The persistent poverty in the area qualifies it as a Federal Opportunity Zone.

Silver Springs is situated on the west shore of the Lahonton Reservoir which is part of the Carson River waterway and the Carson River EPA Superfund site. Silver Springs is one of the few developed areas in the County with the potential for new development. 75% of the land in Lyon County is federal land which limits areas where private investment to meet the economic needs of the residents is allowed. Silver Springs is also home to the Silver Springs Airport, a general aviation airport formerly US Air Force property. The intersection of major interstate freeways at Silver Springs along with the location of the airport make this an area the County has selected for reinvestment and re-use.

Challenges to development in this area include the proximity of the Carson River Superfund site, and prior agricultural uses and mining operations. Portions of this target area are mapped by FEMA as special flood Zone AE which may have allowed contaminants to spread during floods and intense rainfall.

#### Gardnerville and Minden Townships of Douglas County:

The Gardnerville and Minden Township of Douglas County are located approximately 10 miles south of Carson City along I-395. Gardnerville has active Mainstreet revitalization programs that offer small business support including façade improvement grants. U.S. Route 395 runs through the center of both Minden and Gardnerville. State Route 207, known as Kingsbury Grade, connects Gardnerville to California and U.S. Route 50. Because of these transportation linkages the area has strong market potential for logistics and warehousing. The Tahoe-Minden Airport is also located in this area. The airport is a 900-acre general aviation port located on a former military base. Muller Parkway at the south end of Gardnerville and located along I-395 is designated for commercial and light industrial uses and includes properties targeted for Brownfields assessment and re-use marketing. The concept of Muller Parkway is to allow for new commercial growth near Gardnerville and Minden without destroying the historic character of the downtown districts or displacing residents and small businesses.

Challenges to re-use of these areas include prior railroad uses, agricultural uses and older highway commercial uses, and heating fuel tanks. Portions of this target area are mapped by FEMA as a special flood zone.

### Topaz Lake and Holbrook Junction in Douglas County:

Topaz Lake and Holbrook Junction are located along I-395 near the Nevada-California border. The Lake Topaz/Holbrook Junction area is a very low-income area with a high population of Native American and Latino households. In 2021, the Tamarack Fires devastated parts of Holbrook Junction area which has been designated a Federal Disaster area. Over 25 homes and additional mobile homes were destroyed by the 2021 wildfire leaving behind older fuel storage units, melted and incinerated household materials and other contaminants incidental to fire and fire suppression. The Topaz Lake settlement is an unincorporated town located on the shore of Topaz Lake, with many old structures that may have older fuel tanks and/or lead-based paints. Many of the residents want to rebuild their homes but are concerned regarding possible contaminants left by the fire.

### **SCOPE OF WORK**

In addition to the services (e.g., community outreach plan, preparing an inventory of Brownfields sites, conducting Phase I and Phase II assessments on priority sites, developing clean-up plans, and reporting) that Brownfields grants recipients regularly seek from an environmental consultant, the contractor selected through this solicitation will be required to work with NNDA to provide project management and community outreach services. While NNDA will play an active role in the implementation of the Brownfields program, and bear responsibility for accountability to the EPA, as well as provide a project manager and staffing, the selected consultant will be expected to provide their own staffing needed to carry out Tasks 1-5, including Project Management, Planning, Community Outreach, and Reporting.

Before responding to this RFP, please review the Goals and Objectives; Project Goals; Tasks 1-5; and Milestones and Deliverables

## GOALS AND OBJECTIVES

### EPA Strategic Plan

The EPA Strategic Plan is available at: <https://www.epa.gov/planandbudget/strategicplan.html>. This project supports EPA's Strategic Plan, Goal 1's core mission which is to deliver real results to provide Americans with clean air, land, and water, and ensure chemical safety. Objective 1.3: Revitalize Land and Prevent Contamination.

### Outputs:

- Selection and management of the Qualified Environmental Professional (QEP)
- Qualified Environmental Professional Contract
- NNDA/QEP Management Meetings
- Establish Project Timeline
- Coordination meetings and conference calls with the EPA grant officer.
- Coordination meetings and conference calls with State-lead Brownfields program
- Payment Requests Submitted
- Project Tracking and Spreadsheet reporting on assessed Brownfields properties.
- Attend meetings and conferences related to Brownfields.
- 16 Quarterly Reports
- 4 annual Financial Status and MBE/WBE Utilization Reports to EPA
- Final project report.
- Identify and screen up to 35 brownfield properties for environmental site assessment activities.
- 15 Phase I ESAs
- 8 Phase II ESAs
- 1 DQO/QAPPs
- 8 Property-Specific SAPs/HASPs will be completed over the course of the project period.
- Update EPA's national ACRES database
- Up to 4 ABCAs will be developed in collaboration with EPA, NDEP, State Health Department and the CBOs.
- 10 reuse/certified plans will be completed to ensure the sites are ready for marketing and reuse
- 1 project "kick-off" meeting
- 3 three annual target or community meetings
- 25 grant updates for the NNDA Council and/or community groups to discuss ESA results, cleanup, planning, and redevelopment options.

### Outcomes:

The following outcomes and benefits are expected from the reuse strategy the grant supports. No displacement of residents or businesses is expected:

- Bring new jobs to areas such as Silver Springs and Topaz Lake which are areas of persistent high unemployment and lower incomes. The NNIC site near Silver Springs could generate approximately 33,000 new direct industrial/manufacturing jobs once the first phase of 6,000 acres is built out. In turn this can help catalyze reinvestment in the

Silver Springs/Stagecoach federal Opportunity Zone thereby helping to reduce the high unemployment rate in Silver Springs.

- Similarly, properties near the Minden-Tahoe Airport in Douglas County would generate between 1,000 to 3,000 new permanent jobs depending on the type of commercial tenant secured. This would benefit not only the Gardnerville/Minden areas, but also the Topaz Lake area approximately 15 miles south on Interstate 395.
- The new uses and re-uses are expected to meet modern energy efficiency standards as required by code. Some areas such as major developments in Silver Springs are ideal for incorporation of solar energy systems because of the high desert location and is consistent with the Lyon County Master Plan policy of including solar systems in new development. Silver Springs, on average, has 251 sunny days per year.
- New employment in turn may create demand for re-use of vacant or underutilized infill sites in the target communities to support neighborhood serving uses such as major grocery stores, and health clinics which are needed in the Silver Springs and Topaz Lake areas.
- Clean-up of wildfire burned structures and land in the Holbrook Junction area will protect public health and safety in the community and prevent transport of suspected contaminated fire residue into the nearby waterways of Topaz Lake and Walker River which provide fisheries, recreation and interplay with the aquifers which provide well water in the area.
- Finally, development of the catalyst sites identified above is expected to increase the local tax base which allows for improved public services such as schools, health care, and public safety for residents of the target area.

#### **b. Project Goals:**

NNDA's Vision is to remove or manage environmental impairments that are inhibiting redevelopment activities in the Target Areas (TAs) in accordance with the adopted land-use and revitalization elements of Carson City's, Douglas County, Lyon County, Mineral County and Storey Counties Comprehensive Master Plans.

NNDA will develop an inventory of sites within the targeted areas based on close coordination with Carson City, Douglas County, Lyon County, Mineral County and Storey Counties and our CBO partners. In conjunction with our community-based partners (CBO's), an outreach to property owners and prospective purchasers will be conducted to generate interest in the program. As described in more detail below, NNDA will conduct environmental assessments within the targeted areas based on the Site Selection Process which will emphasize the feasibility of re-use of the property in support of planning objectives, reuse of existing infrastructure, willingness of the owner/ prospective buyer or investor to fully participate in re-use, and the ability of properties to spur catalytic development in the targeted areas.

As sites are cleared for reuse, NNDA will market these sites to the Governor's Office of Economic Development Strategic Plan's target industries of agriculture, e-commerce, manufacturing, renewable energy generation, tourism, and to commercial and residential development. Based on NNDA's success of relocating and expanding companies to the region since 2010, it is anticipated that sites cleared of environmental impairments will be redeveloped within a relatively short period of time. By doing so, brownfields can be put back to productive use, generating jobs and local tax revenue.

## **Tasks**

NNDA will divide the grant into five tasks under each of the funding sources (hazardous substances and petroleum) and will manage the funding separately. The five tasks are described below:

### **Task 1 - Project Management and Reporting**

#### **a. Task Description**

This task includes overall grant management including NNDA's selection and management of the Qualified Environmental Professional (QEP) following completion of a qualifications-based procurement process; coordination with EPA; and Brownfields grant reporting. # **GENERAL CONDITIONS**

## GENERAL CONDITIONS

*Please Read Carefully  
These Provisions Are a Part of Your Bid and any Contract  
Awarded*

**Scope of Bid/Proposal:** Bids/Proposals are hereby requested for **Environmental Consulting Services**, per specifications herein:

**The bidder agrees that:**

- A. Bidder has carefully examined the specifications, and all provisions relating to the item(s) to be furnished or the work to be done; understands the bidder is required to comply with all general and programmatic terms and conditions of the EPA grant; and
- B. The bidder will enter into a written contract and furnish the item(s) or complete the work in the time specified, and in strict conformity with NNDA's specifications for the prices quoted; and
- C. The bidder is required to comply with all relevant Nevada Environmental requirements.

**Note:** Bidder is defined as any individual, partnership, or corporation submitting a bid, proposal, or quotation in response to a request for bid (RFB), request for proposal (RFP), request for information (RFI) or request for quotation (RFQ). A bidder may also be referred to as a bidder, contractor, supplier or vendor.

**1. Prices:**

All prices and notations must be in ink or typewritten. Mistakes may not be crossed out or corrected with written ink but must be corrected in type. Bids shall indicate the unit price extended to indicate the total price for each item bid. Any difference between the unit price correctly extended and the total price shown for all items bids shall be resolved in favor of the unit prices. Bidders are encouraged to review all prices prior to bid submittal, as withdrawal or correction may not be permitted after the bid has been opened.

**2. Firm Prices:**

Prices on bid shall be firm prices not subject to escalation unless otherwise provided for in the specifications. In the event the specifications provide for escalation, the maximum limit shall be shown, or the bid shall not be considered. In the event of a decline in market price below a price bid, NNDA shall receive the benefit of such decline.

**3. Items Offered:**

If the item offered by the bidder has a trade name, brand and/or catalog number, such shall be stated in the bid. If the bidder proposes to furnish an item of a manufacturer or vendor other than that mentioned on the face hereof, the bidder must specify maker, brand, quality, catalog number, or other trade designation. Unless such is noted on the bid form, it will be deemed that the item offered is that designated even though the bid may state "or equal".

**4. Brand Names:**

Whenever reference to a specific brand name is made, it is intended to describe a component that has been determined to best meet operational, performance, or reliability, thereby incorporating these standards by reference within the specifications. These specifications are not meant to limit the vendor; they are guidelines to minimum qualifications. The bidder shall indicate their compliance or non-compliance for each line of the specification. Any deviations from the specifications or where submitted literature does not fully support the meaning of the specifications must be clearly cited in writing by the bidder. An equivalent ("or equal") may be offered by the bidder, subject to evaluation and acceptance by NNDA. It is the bidder's

responsibility to provide, at bidder's expense, samples, test data, or other documentation and NNDA may require us to fully evaluate and determine acceptability of an offered substitute. NNDA reserves the sole right to reject a substituted component that will not meet or exceed standards.

**5. Samples:**

Samples may be required for bid evaluation and testing purposes. Bidders shall agree to provide samples upon request and at no additional cost.

**6. Withdrawal of Bids:**

Bids may be withdrawn by written or facsimile notice received prior to the exact hour and date specified for receipt of bid. A bid may also be withdrawn in person by a bidder, or bidder's authorized representative, prior to the exact hour and date set for receipt of bids. Telephone withdrawals are not permitted.

**7. Late Bids, Modifications, or Withdrawals:**

Bids, modifications of bids, or bid withdrawals received after the exact time and date specified for receipt will not be considered.

**8. Mistake in Bid:**

- (a) If the bidder discovers a mistake in bid prior to the hour and date specified for receipt of bid, bidder may correct the mistake by withdrawing the bid in accordance with Item 7 above and resubmit prior to the stated bid deadline.
- (b) If within seventy-two hours of the bid closing and prior to the issuance of a purchase order or a contract, the bidder discovers a mistake in a bid of a serious and significant nature, bidder may request consideration be given to withdrawing the bid. The mistake must be evident and provable. The right is reserved by NNDA to reject any and all requests for withdrawal of bids. The decision of the Project Manager is final as regards to acceptance or rejection of requests for withdrawal after closing of bids.
- (c) A mistake in a bid cannot be considered once a purchase order or contract is issued.

**9. Signature:**

All bids shall be signed, and the title and firm name indicated. A bid by a corporation shall be signed by an authorized officer, employee or agent with his or her title.

**10. Exceptions:**

A bidder deviating from specifications must specify any and all deviation(s). Failure to note said exceptions shall be interpreted to convey that the bidder shall propose to perform in the manner described and/or specified in this bid solicitation. If exception(s) are taken or alternatives offered, complete descriptions must be shown separately.

**11. Confidential Information:**

Any information deemed confidential or proprietary should be clearly identified by the bidder as such. It may then be protected and treated with confidentiality only to the extent permitted by state law. Otherwise, the information shall be considered a public record. Information or data submitted with a bid will not be returned.

**12. Quality:**

Unless otherwise required in the specifications, all goods furnished shall be new and unused.

**13. Litigation Warranty:**

The bidder, by bidding, warrants that bidder is not currently involved in litigation or arbitration concerning the materials or bidder's performance concerning the same or similar material or service to be supplied pursuant to this contract of specification, and that no judgments or awards have been made against bidder on the basis of bidder's performance in supplying or installing the same or similar material or service, unless such fact is disclosed in the bid. Disclosure may not disqualify the bidder. NNDA reserves the right to evaluate bids on the basis of the facts surrounding such litigation or arbitration and to require bidder to furnish a surety bond executed by a surety company authorized to do business in the State of Nevada and approved by NNDA in a sum equal to one hundred percent (100%) of the contract price conditional on the faithful performance by bidder of the contract in the event the bid is awarded to bidder, notwithstanding the litigation or arbitration.

**14. Royalties, Licenses and Patents:**

Unless otherwise specified, the bidder shall pay all royalties, license and patent fees. The bidder warrants that the materials to be supplied do not infringe any patent, trademark or copyright and further agrees to defend any and all suits, actions and claims for infringement that are brought against NNDA, Churchill County and Lyon County, and to defend, indemnify and hold harmless NNDA, Churchill County and Lyon County from all loss or damages, whether general, exemplary or punitive, as a result of any actual or claimed infringement asserted against NNDA, Churchill County and Lyon County, the bidder or those furnishing material to bidder pursuant to this contract.

**15. Performance Standards:**

Performance of work and acceptability of equipment or materials supplied pursuant to any contract or award shall be to the satisfaction and full discretion of NNDA.

**16. Americans with Disabilities Act (ADA) Standards:**

Bidders shall be required to comply with current ADA Standards in preparing their bids and executing work required under any contract resulting from this bid. Completed work must comply with current ADA Standards.

**17. Warranties:**

- (a) Unless otherwise specified, all workmanship, material, labor or equipment provided under the contract shall be warranted by the bidder and/or manufacturer for a minimum of twelve (12) months after acceptance by NNDA. Greater warranty protection will be accepted. Lesser warranty protection must be indicated by the bidder on the bid proposal as an exception.
- (b) Bidder shall be considered primarily responsible to NNDA for all warranty service, parts and labor applicable to the goods or equipment provided by bidder under this bid or award, irrespective of whether bidder is an agent, broker, fabricator or manufacturer's dealer. Bidder shall be responsible for ensuring that warranty work is performed at a local agency or facility convenient to NNDA and that services, parts and labor are available and provided to meet all schedules and deadlines. If required and defined within the Scope of Work, the Bidder will post a performance bond after contract award to guarantee performance of these obligations. The bidder may establish a service contract with a local agency satisfactory to NNDA to meet this obligation if bidder does not ordinarily provide warranty service.

**18. Addenda:**

The effect of all addenda to the bid documents shall be considered in the bid and said addenda shall be made part of the bid documents and shall be returned with them. Before submitting a bid, each bidder shall ascertain whether or not any addenda have been issued, and failure to acknowledge any such addenda may render the bid invalid and result in its rejection.

**19. Specifications to Prevail:**

The detailed requirements of the Specifications, Scope of Work or Special Conditions shall supersede any conflicting reference in these General Conditions.

**20. Taxes:**

NNDA is exempt from State, City and County Sales Taxes per NRS 372.348. NNDA will furnish Exemption Letters when applicable.

**21. Prevailing Wages:**

Bidder is responsible for complying with all applicable local, State and Federal wage laws, whether or not specifically cited in this bid document.

Per NRS Sections 338.020 through 338.090, certain projects defined as “public works” require the payment of the prevailing wage as determined by the Labor Commissioner. The bidder shall be fully aware of the prevailing wage requirements of the State of Nevada as detailed in NRS Chapter 338 and price their bid response accordingly. Further information concerning Prevailing Wage rates can be found at: <http://www.laborcommissioner.com/pwpw.html>

Federal “Davis Bacon” wages may be applicable if the funding for the project includes Federal funds. These requirements are detailed in the “Special Conditions – Federal Requirements” section that will be included in this bid document when such conditions apply.

**22. Conflict of Interest:**

No NNDA employee may participate directly or indirectly in the procurement process pertaining to this bid if they:

- (a) Have a financial interest or other personal interest that is incompatible with the proper discharge of their official duties in the public interest or would tend to impair their independence, judgment or action in the performance of their official duties.
- (b) Are negotiating for or have an arrangement concerning prospective employment with bidder. The bidder warrants to the best of his knowledge that the submission of the bid will not create such conflict of interest. In the event such a conflict occurs, the bidder is to report it immediately to the Project Manager. For breach or violation of this warranty, the NNDA shall have the right to annul this contract without liability at its discretion, and bidder may be subject to damages and/or debarment or suspension.

**23. Disqualification of Bidder:**

Any one or more of the following may be considered as sufficient for the disqualification of a prospective Bidder and the rejection of the Bid:

- (a) The Bidder is not responsive or responsible.
- (b) The quality of services, materials, equipment or labor offered does not conform to the approved plans and specifications.
- (c) There is evidence of collusion among prospective Bidders (Participants in such collusion will receive no recognition as Bidders).
- (d) The Bidder lacks the correct contractor’s license classification required for the defined scope of work.
- (e) Lack of competency, understanding of the scope of work, adequate machinery, plant and/or equipment as revealed in routine due diligence associated with bid evaluation.

- (i) Failure to comply with any requirements.
- (j) Failure to list, as required, all subcontractors who will be employed by the Bidder.
- (k) Any other reason determined, in good faith, to be in the best interest of NNDA and coalition partners.

**24. Gratuities:**

NNDA may rescind the right of the bidder to proceed under this agreement if it is found that gratuities in the form of entertainment, gifts, cash or otherwise are offered or given by the bidder, or any agent or representative of the bidder, to NNDA, Churchill County and/ or Lyon County, with the intent of influencing award of this agreement or securing favorable treatment with respect to performance of this agreement.

**25. Indemnification**

If NNDA, Churchill County and/or Lyon County personnel are involved in defending such actions, Contractor shall reimburse NNDA, Churchill County, and/or Lyon County for the time and costs spent by such personnel at the rate charged to NNDA, Churchill County, and/or Lyon County for such services by private professionals.

In determining the nature of the claim against NNDA, Churchill County, and/or Lyon County, the incident underlying the claim shall determine the nature of the claim, notwithstanding the form of the allegations against NNDA, Churchill County, and/or Lyon County.

Nothing in this contract shall be interpreted to waive nor does NNDA, by entering into this contract, waive any of the provisions found in Chapter 41 of the Nevada Revised Statutes.

It is further understood and agreed by and between NNDA and Contractor that Contractor shall procure, pay for, and maintain the above-mentioned industrial insurance coverage at Contractor's sole cost and expense.

By their nature, proposals will include a number of variables that will vary based on the complexity of the product or service addressed within the proposal. Therefore, the evaluation of RFP's and the recommendation for award will not be based on price alone. Selection criteria will be better defined for each scope of work in the Special Conditions section of this bid.
